

The Suture Pad

The Suture Pad

Practice surgical incisions and improve your suturing techniques with the Suture Pad.

Available in two different models, the Suture Pad is entirely made of high-quality silicone, reproducing the feeling of touching the human skin.

It's highly durable, resistant, easy to clean, and can be used countless times with different sizes of needles and threads.

The realistic layers enable to accurately train suturing skills.

SUTURE PAD 2 Layers

This suture pad consists of two distinct layers representing epidermis/dermis and muscular tissue.

SUTURE PAD 3 Layers

This suture pad consists of three distinct layers representing epidermis/dermis, subcutaneous, and muscular tissue.

Colours *

Light

Medium

Dark

Available in two sizes

- 10 x 10 cm (4 x 4 in)
- 10 x 20 cm (4 x 8 in)

Options for finishing

- Basic top layer with smooth finishing
- Realistic top layer with skin texture

Technical specifications

- Reinforced top layer for extra durability
- The model can be used repeatedly
- Easy to clean and disinfect
- The bottom layer sticks to flat surfaces. This prevents slipping, enabling the student to use both hands for the exercise

Warranty

While we're confident that the MEDICAL-X's products are highly user-friendly, we also understand that this is an advanced product with the need for strong support and service. That's why we provide application training and guarantee the product for two years.

Additional service packages can also be delivered.

About MEDICAL-X

MEDICAL-X is a Dutch company specialized in the design, development, manufacturing, marketing and distribution of simulation products for medical teaching and training.

Our mission is to provide healthcare professionals with simulation-based training solutions and cutting-edge technological simulators that are cost-effective and time-efficient to teach and train clinical skills without risk to actual human patients.

Design philosophy

Realism is the key to our design philosophy! Simulator training gives medical teams the experience, competence, and confidence they desire. Realism adds to the quality and efficacy of training.

Our products are developed through extensive feedback programs to produce an engaging experience for healthcare professionals. Form and function come together in a realistic and interactive simulator, ready to be used in training for all levels of care.
